COVID-19 MEMO

We have provided the highest level of legal services throughout Michigan for nearly 20 years. We have been trusted to assist people through the most difficult and trying times of their lives. The challenges we face form who we are. Our measure is how we handle ourselves in difficult situations, and become, better, stronger and wiser because of it. These times are no exception.

We take great pride in navigating people through all areas of the law. The situation created by the COVID-19 virus poses unique health, business, and personal problems for all of us. Our firm is here to assist with your legal needs throughout these difficult times. We are continuing to work diligently to guide our existing and new clients through unique challenges. Please reach out (by phone or email of course for now) if you have any legal or personal needs. Here are some areas that we have identified:

- Estate planning
- Bankruptcy
- Business re-organization
- Federal/State loan programs
- Social Security Disability
- Unemployment claims
- Family law/child support

We have prided ourselves in supporting our clients, and are continuing to do so. Remember that all initial consultations are free and those may be conducted over the phone or via video conferencing. Take care and stay healthy!
